***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

- The primary reasons for allowance for claims 2-4, 6, 15-17 are the inclusion of the limitations of a continuous inkjet printer comprising a flow controller selectively communicating sources of fluid ink with a manifold, whereby ink drops of selectable optical characteristics are prepared in the manifold for continuously delivering ink droplets, all of the ink droplets having the same optical characteristics as the liquid in the manifold. It is these limitations, either alone or combined as claimed, that have not been found, taught, or suggested by prior art.
- The primary reasons for allowance for claims 5, 10-14 are the inclusion of the limitations of a continuous inkjet printer comprising a flow controller selectively communicating sources of fluid ink with a manifold, whereby ink drops of selectable optical characteristics are prepared in the manifold for continuously delivering ink droplets, wherein the flow controller comprises a pressurized source and a valve. It is these limitations, either alone or combined as claimed, that have not been found, taught, or suggested by prior art.
- The primary reasons for allowance for claims 7-9 are the inclusion of the limitations of a continuous inkjet printer comprising a flow controller is adapted to meter colorless ink into an ink manifold after a droplet is delivered to thereby dilute color ink remaining in the manifold sufficiently

such that a next desired optical characteristic can be attained by adding ink of appropriate optical characteristic to the manifold. It is these limitations, either alone or combined as claimed, that have not been found, taught, or suggested by prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
